

Oxford Gene Technology (OGT)

Email: contact@ogt.com; Website: www.ogt.com

Oxford Gene Technology (OGT) provides world-class genetics research solutions. OGT has a strong reputation and increasing share in the large and growing genomic medicine market. The Company's Cytocell[®], CytoSure[™] and SureSeq[™] range of fluorescence *in situ* hybridisation (FISH), microarray and next generation sequencing (NGS) products deliver high-quality genetic analysis, enabling accurate identification and confirmation of the causative variation underlying genetic disease.

OGT was recently acquired (June 2017) by Sysmex Corporation (Sysmex), a Japanese *in vitro* diagnostic organisation expanding Sysmex's life science business and reinforcing its initiatives towards personalised medicine.
